I'm using an actioncolumn in my application, so I'm wondering if this is possible at all. A: You can set up redirects in your routes: For example: resources :article do get 'bookmark', on: :collection end Then in your controller: def bookmark @article = Article.find(params[:id]) redirect_to bookmark_url(@article) flash[:notice] = 'Bookmarked!' end into defendant's legal system. Accordingly, I would reverse and remand. NOTES [1] The State initially named Sean Delaney as an additional appellant in this case. On October 18, 2005, this court ordered Delaney to show cause why this court should not dismiss his appeal. The State later moved to dismiss Delaney's appeal, and Delaney filed a response to the motion. Because we reverse the trial court's ruling on the other issues raised in this appeal, we need not address Delaney's response to the State's motion to dismiss. f678ea9f9e
